Expérience

Independent
My portfolio creation
March 2022 (1 month)
Vendée, Pays de la Loire, France

Creation of my portfolio, under React on Typescript.
**Live demo** : https://tomsportfolio.netlify.app/

Independent
React application creation, DomEquiMediation
January 2022 – February 2022 (1/2 month)
Vendée, Pays de la Loire, France

Creation of a React web application, showcase site for the sale of equine
mediation services (or equine therapy). This can be defined
like the art of healing the mind through the mediation of the horse.

**Live demo** : https://domequimediation.netlify.app/

OpenClassrooms
3 months

Front-end React developer
October 2021 - November 2021 (1/2 months)
Bretignolles-sur-Mer, Pays de la Loire, France

The SportSee app presents performance data from a user in the form of charts from the Recharts.js and D3.js libraries. On this demo, two users are available. Application coded under the React library based on functional components.
Live demo : https://sportseeapp.netlify.app/

Front-end React developer
September 2021 - October 2021 (1/2 months)
Bretignolles-sur-Mer, Pays de la Loire, France

Kasa is an application coded under the React framework.

It presents a list of apartments, and on clicking on each one, a page presenting the details, as well as an image gallery.

Fully responsive site accessible for people navigating only with the keyboard or using a screen reader.
Live demo : https://kasarent.netlify.app/
